we'll
be there

Here's a novel idea: you can relax and enjoy your own reception. Your Complete Music DJ will be there to fulfill the plans you made.

- Because you work with your DJ well in advance to coordinate all aspects of your reception, your DJ will know exactly what you expect. Before the reception even begins, your DJ will be there to serve you, to fulfill your expectations, to deliver our pledge of quality entertainment.
- Your DJ will meet and greet your guests as they arrive and take their song requests throughout the evening. Your delighted family and friends will feel they are part of your celebration.
- What if extra help or equipment is needed? Help is a phone call away. We'll be there!

Planning ahead ...

- You will choose the participation dances you desire.
- You will coordinate the volume level and song selection with your DJ.
- Your DJ will check with you during the reception to make sure you are pleased.

lets play!

Play and fun are the same thing when your Complete Music DJ interacts with your guests. How much involvement is right for the guests at your reception? You will decide the level you prefer.

- You will see more of your friends and family smiling if you allow our DJ to have fun interacting with your guests.
- So, whether your reception is formal or informal, our skilled DJs know how to please your particular crowd with tasteful interactive fun. (Like things rowdy? We can do that too!)
- What about the NEW dances? We constantly update our DJ training, so whatever participation dances you choose – new dances or old favorites – we're ready to please. The results? A reception that is unique and enjoyable.
- Your DJ loves to see you and your guests smiling. Making people smile is what we do!

it's all in
our attitude

It's the first thing you'll notice. Your DJ's positive attitude will positively affect your entire reception. Positive attitude is part of Complete Music's DJ training.

- Our DJs are well-trained and well-prepared to please you. They love what they do, and it shows.
- Our incredible CM Smile philosophy and training is what keeps your DJ's attitude positive and your guests smiling.
- More good news. Complete Music uses only properly licensed music. Your DJ knows that most other DJ services do not follow this rule. This protects your DJ and you from possible negative consequences of using illegally produced music.
- Complete Music DJs work exclusively for Complete Music. No subcontractors get involved (as with other services). So with us, positive attitude is everything, and it plays the big role in determining the success of your reception.

We hand pick DJs who love pleasing people.
